

## 2400WATT INFRARED POWER HEATER

**Yandiya's Infrared Power Heaters** designed & engineered range of premium quality, stylish & slim line electric radiant heaters ideal for protected outdoor and indoor heating applications.

- Stylish, slim line, unobtrusive design
- Efficient, cost effective electric heating
- Significant running cost savings compared to bottled gas heaters
- Radiant heat means gentle comfortable warmth
- Corrosion protected for even the toughest environment

### Technical Specifications

|                      |                            |
|----------------------|----------------------------|
| Dimensions:          | 1364*165*48mm              |
| Power:               | 2400 Watt                  |
| Voltage:             | 220V- 240V                 |
| Heating Coverage:    | 31.65- 28.37m <sup>2</sup> |
| Overheat Protection: | 320/360°C                  |
| Energy Transfer:     | 98%                        |

### Certification

### MANUFACTURE MATERIAL SPECIFICATION:

|                        |  |
|------------------------|--|
| Surface Design         | Frameless Black Glass with polished edge and Heat Resistant Aluminium                    |
| Heating Element        | Infrared Nanotech glass tubes  |
| Material               | Conductive Electrical Carbon Modular Nanotech Ink/Epoxy Resin                            |
| Construction           | Aluminium slim line profile, with re-enforced back – and stainless steel mounting screws |
| Fixings                | Wall Mounted – ceiling mounted   |
| Connection             | UK/EU/US Plug with 1-meter cable   |
| Surface Temperature    | <320°C +/-5%   |
| Service Life           | 10 years   |
| Warranty               | 2 years  |
| Country of Manufacture | Made in China  |

This product must not be position where it can be touched, the surface temperature get very hold and can burn. Yandiya Infrared Panel must be used in conjunction with thermostat controls units. Recommended installed by approved installer.
